PROJECTS

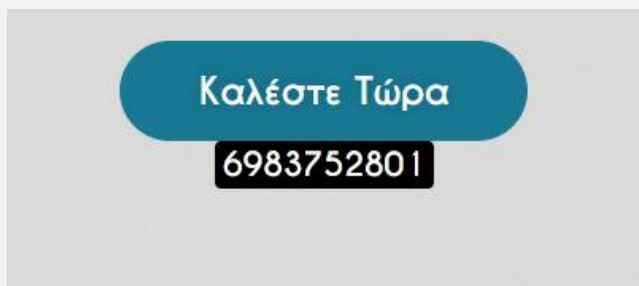

Websites:

<https://www.sparkworks.cloud/>

A presentation page made with WordPress, using Elementor add-ons and additional CSS5 rules.

The design of the website was made by a professional designer of the company, so I had to get the preferred result according to Figma's prototype.

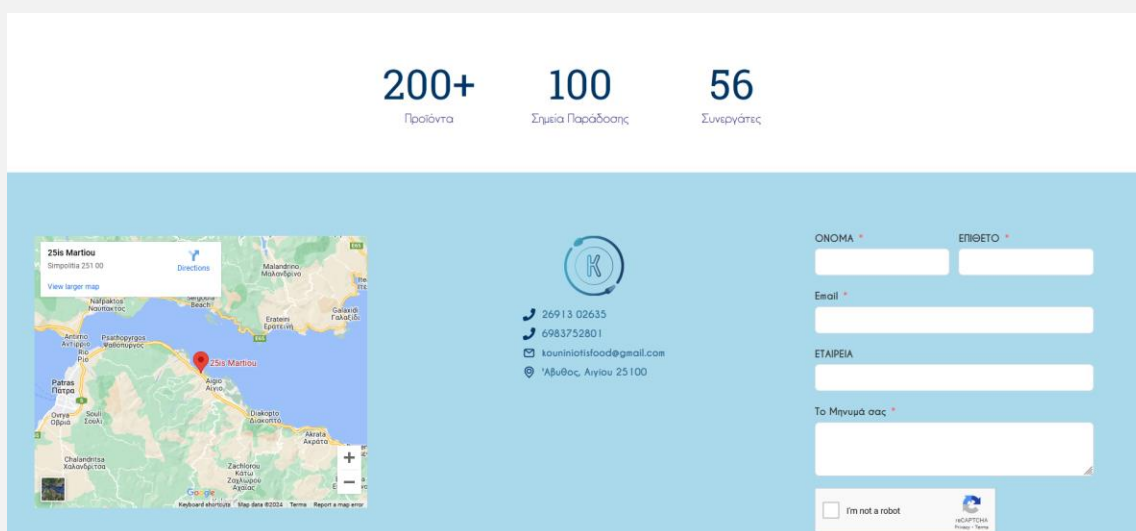

<https://kouniniotisfood.gr/>

A presentation website, for a small company made with WordPress, using add-ons and additional CSS5 rules.

The design and the development of the website was inspired and made by me after conversation and showing different prototypes to the client.

In addition I fixed the SEO of the website and the Business Google Profile.

Σας καλωσορίζω εκ μέρους όλων των καθηγητών και του υπόλοιπου προσωπικού του Τμήματος!

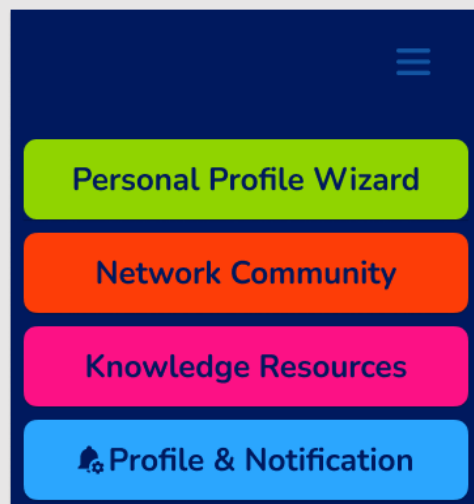

Καταρχήν συγχαίρω τους νέους φοιτητές μας τόσο για την επιλογή τους, όσο και για την επιτυχία τους, η οποία είναι αποτέλεσμα σκληρής προσπάθειας και θυσιών, προσωπικών και των οικογενειών τους. Μια καινούργια περίοδος της ζωής τους αρχίζει, συναρπαστική και δημιουργική, κατά την οποία θα αποκτήσουν τα επιστημονικά εφόδια, τις γνώσεις και τις δεξιότητες που απαιτούνται από τα μέλη της κοινότητας των Μηχανικών Ηλεκτρονικών Υπολογιστών και Πληροφορικής.

<https://www.ceid.upatras.gr/>

Website of the University of Patras, made by Vongrid where I had to do:
The data entry (Courses, Courses outlines, Academic Stuff and additional educational details according the University),
Translate the website from Greek to English.

<https://network.matters-solution.com/>

A Network Platform made by Vongrid where I participated, working on the front-end development of the web application and grew my skills on responsiveness.
